ABOUT THIS BREEDER

BREEDER PHILOSOPHY

4Aroids was founded in 2024 by three plant lovers. The start-up focuses on anthuriums and almost exclusively its own hybrids, which are primarily grown by the founders themselves.

Their goal is to create affordable, common, and unique anthuriums. In addition, they provide basic knowledge and in-depth background information on anthuriums in their comprehensive encyclopedia.

This includes information on many different types of anthuriums, such as Carlblackiae and Papillilaminum, explanations of terms and definitions, overviews of possible hybrids, the flowering period of anthuriums, and much more.
