# ABOUT THIS BREEDER

## BREEDER PHILOSOPHY

BUZ PLANTS

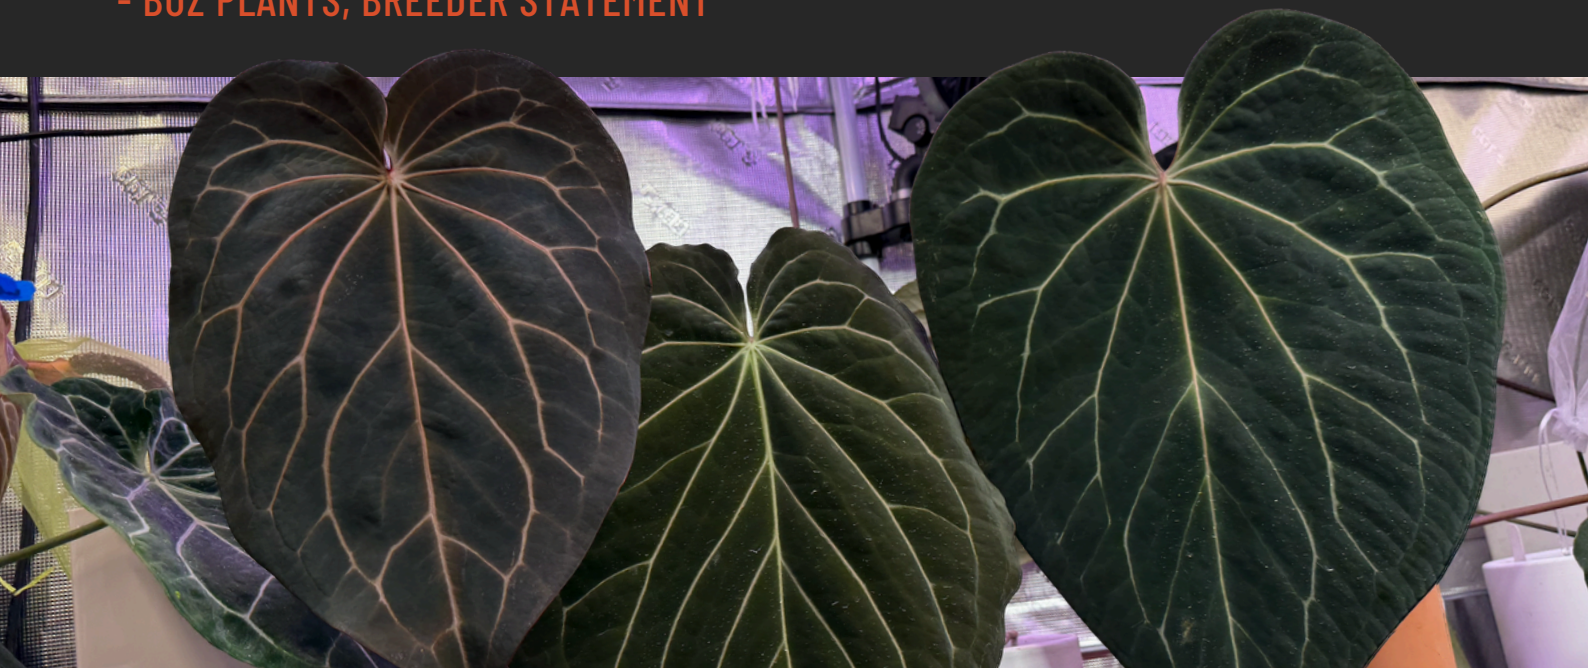

*At Buz Plants, our breeding philosophy is based on precision and patience. We focus on line breeding; selectively pairing plants over multiple generations to refine and stabilize traits such as leaf shape, venation, coloration, and structure. Our goal is to create plants that are both visually striking, easy to grow, and genetically consistent.*

*Healthy plants are a priority. Each generation is evaluated not just for appearance, but for vigor, resilience, and long-term performance. Only select individuals are carried forward, ensuring every release is a better evolution of the last.*

*Ethics are central to our work. We do not collect from the wild or contribute to habitat destruction. All breeding stock is responsibly cultivated, using controlled pollination and selective propagation to maintain genetic integrity.*

*Ultimately, we create plants worth owning long-term, prioritizing health over hype and consistency over chance.*
